It is invaluable for the alleviation of cough and colds, and will be found vastly different from and superior to all others bearing the name, being righter and clearer in color, of unequalied purity and most agreeable to the taste. The opportunity for cheating in putting up Rock and Rve has been too tempting for any but strictly honest dealors, as the large amount of sweetening disguises the larsh quanties in the liquor, so that the crudest of whiskey has been often used and great profit made.
